The International Certification & Reciprocity Consortium (IC&RC) Renews Contract with Schroeder Measurement Technologies, Inc.

DUNEDIN, FL – June 9, 2010 – Schroeder Measurement Technologies, Inc. (SMT) announced today that the International Certification & Reciprocity Consortium (IC&RC) has renewed its contract with SMT for continuing test development and administration. Following a competitive bid process, IC&RC extended their relationship with SMT by signing a contract renewal through 2013.

Dr. Lee Schroeder, president of Schroeder Measurement Technologies, commented, “We are honored IC&RC has chosen to continue their partnership with SMT. The IC&RC program has grown substantially over the past several years and SMT is committed to the advancement of this diverse and dynamic program. The fact that almost half of all substance abuse professionals hold IC&RC certificates is a testament to the exceptional quality of IC&RC’s program.”

Mary Jo Mather, executive director of IC&RC, added, “IC&RC is pleased to be renewing our contract with SMT. This is without a doubt the single most important vendor with whom we do business. SMT has been striving to meet our ever changing and growing needs as a client and they serve us well. We feel we have a real partner in SMT.”

IC&RC sets the international standards for competency-based certification programs in addiction counseling, prevention, criminal justice, co-occurring disorders and clinical supervision through its testing and credentialing of addiction professionals. In January 2010, IC&RC announced that the number of individuals holding its credential had exceeded 40,000.

IC&RC originally contracted with SMT in 2007 for exam development and administration. With the recent contract renewal, SMT will continue its responsibilities in developing and administering IC&RC exams for the AODA, AAODA, CCS, CPS, CCJP, and CCDP credentials.

About SMT

SCHROEDER MEASUREMENT TECHNOLOGIES, INC (SMT) is a leading international exam development company offering a wide range of examination and related support services to organizations that sponsor certification and licensing programs. SMT applies innovative technologies and methodologies to ensure cost-effective exam solutions for clients in the healthcare, information technology, professional, trade and government markets. Founded in 1995, SMT’s corporate offices are located in Dunedin, Florida. SMT shares its headquarters with two corporate affiliates: Iso-Quality Testing, Inc. (IQT) and Examination Security Solutions, Inc. (ESS). For more information please go to www.smttest.com.
